

New Zealand Institute of Education (NZIE) and G-BI collaborate to co-implement the student project “Transfer work experience and effective working methods in Businesses”

Cập nhật: 26-10-2011

G-BI aims to continuously improve the quality of the Student Project, therefore, we constantly search for partners from developed countries, places where the education system is advanced and the tools they use can be applied to Viet Nam situation to bring advantages for Vietnamese students.

For these reasons, G-BI has officially signed an MOA with NZIE on the 22nd August 2011 so both parties could share experience and knowledge and co-implement the Student Project.

New Zealand Institute of Education offers high quality education with a multi-cultural environment of students, therefore they understand International students and especially know what Vietnamese students need to achieve highest possible results in their studies as well as in their lives.
